How to read this PDS

The Magellan Wholesale Plus Global Fund (the Fund) is issued by Westpac Financial Services Limited (WFSL) ABN 20 000 241 127 AFSL 233716 as the responsible entity of the Fund. The ⓘ symbol indicates you can read more about this section in the Additional Information Booklet and the Additional Information – buy-sell spreads, which also form part of this PDS.

This PDS provides a summary of important information you should consider before making a decision to invest in the Fund.

The information in this document is general information only and doesn't take into account your personal objectives, financial situation or needs. You should consult a licensed financial adviser to obtain financial advice that's tailored to suit your personal circumstances.

Investments in the Fund can only be made by someone receiving this PDS (including an electronic version) in Australia. If you're in possession of this PDS outside Australia, you should seek advice regarding restrictions on investing. Failure to comply with relevant restrictions may violate laws.

1. About Westpac Financial Services Limited

Westpac Financial Services Limited (WFSL, we, us, our) is the responsible entity of the Fund, which is a registered managed investment scheme under the *Corporations Act 2001* (Cth) (Corporations Act). We offer investors a wide choice of investments as well as ongoing monitoring and analysis. We're also responsible for the day-to-day administration and operation of the Fund, and for ensuring it complies with the constitution and legislation. This responsibility includes establishing, implementing and monitoring the Fund's investment objective and strategy. We're the issuer of units in the Fund offered in this PDS and have prepared and issued this PDS.

We're a subsidiary of Westpac Banking Corporation ABN 33 007 457 141 AFSL 233714 (Westpac). An investment in the Fund is not an investment in, deposit with, or other liability of Westpac or any other company in the Westpac Group. An investment in the Fund is subject to investment risk, including possible delays in the payment of withdrawals and loss of income and principal invested. No member of the Westpac Group (including WFSL) stands behind or otherwise guarantees the capital value or investment performance of the Fund.

Investment management of the Fund

We have appointed Magellan Asset Management Limited ABN 31 120 593 946 AFSL 304301 (Manager) to manage the Fund. The Manager has consented to statements about it in this PDS, in the form and context in which they appear and has not withdrawn its consent before the date of this PDS. We conduct monitoring and analysis of the Fund and the Manager.

2. How the Fund works

When you invest your money in the Fund, your money is pooled together with other investors' money. We use this pool to buy investments, and those investments are managed on behalf of all investors in the Fund. By investing this way you acquire an interest in the Fund and access skilled investment management as well as investments you may otherwise not be able to access. However, we have day-to-day control over the operation of the Fund.

So that you know what your interest in the Fund is worth, we divide the net asset value of the assets in the Fund into 'units', and issue these units to investors. We'll calculate a price for each unit and keep a record of the number of units you've acquired.

Generally, the Fund isn't open to direct investors. The Fund is only accessible through an Investor Directed Portfolio Service (IDPS), IDPS-like scheme or a nominee or custody service, a managed account or any other service or platform approved by us (collectively referred to as an 'investment service') or through a superannuation fund. This means the rights that apply to someone who invests directly in the Fund are not available to you, but rather to the operator or custodian of the investment service or the trustee or custodian of the superannuation fund (each referred to as the 'Operator').

Where you are accessing the Fund via an investment service or superannuation fund, the terms 'you' and 'your' used in this PDS refer to you as an investor through such products. However, the Operator will be recorded in the register as the investor and will be the person who exercises the rights and receives the benefits of an investor.

You will need to instruct your adviser or Operator to increase your investment in the Fund by reinvesting distributions or making an additional investment, or to decrease your units by making a withdrawal.

Application money is paid into an interest bearing account upon receipt. Any interest earned on this account will be retained by us and may be paid into the Fund.

Unit prices

Generally, unit prices are calculated each Business Day for the preceding Business Day. A Business Day means a day (other than a Saturday, Sunday or public holiday) on which banks are open for business in Sydney. The unit price will change as the market value of assets in the Fund rises or falls. Assets and liabilities of the Fund for the purposes described in this PDS are valued in accordance with the Fund's constitution.

Entry prices are generally higher than exit prices due to the costs of buying and selling the underlying assets of the Fund. The difference is called the 'buy-sell spread'. There is no buy-sell spread on distributions that are reinvested.

Minimum initial investment

Generally, the Fund isn't open to investment by direct investors. You should refer to the offer document for the investment service or superannuation fund that you invest in as you may be subject to minimum balance requirements.

How to withdraw

You should refer to the relevant offer document for the investment service or superannuation fund, or contact your financial adviser or the Operator, for information regarding processing of transactions relevant to them.

In certain circumstances, such as a freeze on withdrawals or where the Fund is illiquid (as defined in the Corporations Act), you may have to wait a longer period of time before you can redeem your investment.

During the period of processing distributions, the time in receiving your redemption proceeds may be extended. Please refer to Section 2 of the Additional Information Booklet - 'How to withdraw' and 'Restrictions on withdrawals' for further details.

How we process transactions

We'll act on instructions from your Operator. Generally, if we receive a correctly completed application and monies or a correctly completed withdrawal request before 10am (Sydney time) on a Business Day, it will be processed with the unit price calculated for that day. Where we receive correctly completed documentation and monies (where applicable) after 10am (Sydney time) on a Business Day, it will be processed using the unit price determined for the following Business Day.

Distributions

The Fund generally pays distributions annually and under special circumstances may pay special distributions.

Cash distributions are generally determined by the Responsible Entity at the end of the distribution period in accordance with the relevant policy/policies and the constitution, and divided by the number of units on issue.

Distribution payments are typically paid to you (or your Operator) as soon as practicable after the end of the distribution period of the Underlying Fund. You should check with your Operator to see when it will pass distributions on to you.

All taxable income will be attributed to unitholders in accordance with applicable tax laws – refer to section 7 ‘How managed investment schemes are taxed’. Importantly, the cash distribution amount paid to you may vary to the amount of taxable income attributed you.

Indirect investors

We authorise the use of this PDS as disclosure to people who wish to access the Fund indirectly through an investment service or superannuation fund.

- i** You should read the important information about ‘How the Funds work’ in Section 2 of the Additional Information Booklet before making a decision.
- Go to Section 2 of the Additional Information Booklet at bt.com.au/wholesaleplus.

The material relating to ‘How the Funds work’ may change between the time when you read the PDS and the day when you acquire the product.

3. Benefits of investing in the Fund

Key features

The primary objectives of the Fund are to achieve attractive risk-adjusted returns over the medium to long-term, while reducing the risk of permanent capital loss. The Fund offers investors an opportunity to invest in a specialised and focused global equity fund.

The Manager aims to invest in companies that have sustainable competitive advantages which translate into returns on capital in excess of their cost of capital for a sustained period of time. The Manager endeavours to acquire these companies at discounts to their assessed intrinsic value. The Fund’s portfolio will comprise 20 to 40 investments. The Manager believes such a portfolio will achieve sufficient diversification to ensure the Fund is not overly correlated to a single company, or to industry specific or macroeconomic risks.

Key benefits

Some of the benefits that may arise from an investment in the Fund include the following.

- Access to the Manager’s investment expertise and a professionally managed global equity portfolio.
- Access to attractive investment opportunities in offshore markets.
- Prudent risk management.
- Participation in any capital appreciation and income distributions of the Fund.

4. Risks of managed investment schemes

All investments carry risk.

The likely investment return and the risk of losing money is different for each managed investment scheme, as different strategies carry different levels of risk based on the underlying mix of assets. Generally, the higher the level of risk you’re

prepared to accept, the higher the potential returns or losses. Assets with the highest long-term returns may also carry the highest level of short-term risk. Growth assets, such as shares and property, are generally considered the most volatile assets, ie they’re likely to experience greater fluctuations in value than defensive assets, such as fixed interest and cash.

The significant risks for the Fund are as follows.

Asset class risk

This is the risk associated with a particular asset class. For example, equities are generally more volatile than fixed interest investments, while investing in international equities adds additional risks because of currency movements, differing tax structures and social, economic and political factors affecting a country or region.

Market risk

These are factors that can influence the direction and volatility of an overall market as opposed to security specific risks. These factors can be specific to one country or affect a number of countries. Macroeconomic, technological, geopolitical or regulatory conditions and even market sentiment changes can mean the value of investment markets change. These factors include shocks to an economy, such as a spike in the price of oil, terrorist threats, political elections, environmental catastrophes, or changes to monetary or fiscal policy.

Security specific risk

This is the risk associated with an individual security. The price of securities in a company may be affected by unexpected changes in that company’s operations or business environment such as changes in management or the loss of a significant customer.

Liquidity risk

This is the risk that a security or asset may not be converted to cash in a timely manner.

Interest rate or duration risk

This is the risk associated with adverse changes in security prices as a result of interest rate movements. For example, this could be due to a change in the absolute level of interest rates, the spread between two interest rates, the shape of the yield curve, or in any other interest rate relationship. Duration refers to the sensitivity of security prices to a change in interest rates.

International investments risk

International investments may be affected by movements in foreign currency exchange rates, interest rates, political and economic uncertainties, lower regulatory supervision and more volatile, less liquid markets compared with Australian investments.

Currency risk

The Fund may invest across multiple countries which includes the risk that foreign currency fluctuations may negatively impact on the value of investments. It is not the Manager’s intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.

Derivatives risk

The Fund may use derivatives (such as futures) to gain exposure to investment markets. Risks associated with derivatives include the value of the derivatives failing to move in line with the underlying asset, issues associated with the management of the assets backing a derivative so the Fund may not be able to meet payment obligations as they arise, and counterparty risk in the case of over-the-counter derivatives where no clearing house

acts as an intermediary party (where the counterparty to the derivative contract cannot meet its obligations under the contract).

Fund performance risk

There is the risk that active management of the Fund deviate from the benchmark and lead to underperformance.

Emerging markets risk

The Fund may make investments that provide exposure to emerging markets. Emerging markets are generally considered riskier than developed markets due to factors such as lower liquidity, the potential for political unrest, the increased likelihood of sovereign intervention (including default and currency intervention), currency volatility and increased legal risk. Emerging market investments therefore may experience increased asset price volatility and face higher currency, default and liquidity risk.

Compensation fee structure risk

The responsible entity and Manager of the Fund may receive compensation based on the performance of the investments of the Fund. These arrangements may create an incentive for the Manager to make more speculative or higher risk investments than might otherwise be the case. A performance fee may still be payable where the overall performance of the portfolio has declined, where the Fund or Manager has outperformed their benchmark or performance hurdle.

Concentration risk

The Fund may have exposure to a small number of key investments. This may result in the returns of the Fund being dependent on the returns of individual companies and industry sectors. This concentration of exposures may increase the volatility of the Fund's unit price, and increase the risk of poor performance. It may also result in the Fund's returns differing significantly from its benchmark.

Risk can be managed but it can't be completely eliminated. It's important to understand the following.

- The value of your investment will go up and down.
- Past performance isn't an indicator of future performance.
- The level of returns will vary and future returns may differ from past returns.
- Returns are not guaranteed and there's always the chance you may lose money on any investment you make in the Fund.
- Laws affecting your investment in a managed investment scheme may change over time.

The level of risk appropriate for you will depend on a range of factors including your age, investment timeframe, where other parts of your wealth are invested and how comfortable you are with fluctuations in the value of your investment over your investment timeframe.

 You should read the important information about 'Risks of managed investment schemes' in Section 4 of the Additional Information Booklet before making a decision.

- Go to Section 4 of the Additional Information Booklet at bt.com.au/wholesaleplus.

The material relating to 'Risks of managed investment schemes' may change between the time when you read the PDS and the day when you acquire the product.

5. How we invest your money

WARNING: You should consider the Fund's likely investment return, the Fund's investment objective, the Fund's risk level, your individual circumstances and your investment timeframe, before choosing to invest in the Fund.

Magellan Wholesale Plus Global Fund					
Investment objective	The primary objectives of the Fund are to achieve attractive risk-adjusted returns over the medium to long-term, while reducing the risk of permanent capital loss.				
Minimum suggested timeframe	7 years				
Investment strategy	<p>The Fund primarily invests in the securities of companies listed on stock exchanges around the world, but will also have some exposure to cash and cash equivalents. The Fund can use foreign exchange contracts to facilitate settlement of stock purchases and to mitigate currency risk on specific investments within the portfolio. It is not the Manager's intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.</p> <p>The Manager aims to invest in companies that have sustainable competitive advantages which translate into returns on capital in excess of their cost of capital for a sustained period of time. The Manager endeavours to acquire these companies at discounts to their assessed intrinsic value. The Fund's portfolio will comprise 20 to 40 investments. The Manager believes such a portfolio will achieve sufficient diversification to ensure the Fund is not overly correlated to a single company, or to industry specific or macroeconomic risks.</p> <p>The asset allocation of the Fund is:</p> <table border="0"> <tr> <td>Global listed securities</td> <td>80% – 100%</td> </tr> <tr> <td>Cash and cash equivalents</td> <td>0% – 20%</td> </tr> </table>	Global listed securities	80% – 100%	Cash and cash equivalents	0% – 20%
Global listed securities	80% – 100%				
Cash and cash equivalents	0% – 20%				
Risk level	Very High – Very high risk of short-term loss.				

Magellan Wholesale Plus Global Fund

Fund performance	For information on the performance of the Fund, including performance history, please visit bt.com.au/wholesaleplus .
Changes to Fund details and investments	We have the right to make changes to the Fund at any time, and in some cases without prior notice. This could include closing or terminating the Fund, or amending its investment parameters, including the investment objective and strategy, investment manager(s), buy-sell spread or asset class allocation ranges and currency strategy (if applicable). We will inform you about any material change to the Fund's details in your next regular communication or as otherwise required by law. Details of any change will be available on bt.com.au/pdsupdates .

You should read the important information about 'How we invest your money' in Section 5 of the Additional Information Booklet before making a decision.

– Go to Section 5 of the Additional Information Booklet at bt.com.au/wholesaleplus.

The material relating to 'How we invest your money' may change between the time when you read the PDS and the day when you acquire the product.

6. Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and costs summary

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the Fund as a whole.

Unless otherwise stated, all fees are inclusive of GST and take into account reduced input tax credits (RITC), if applicable, in respect of the GST component of the fee.

Taxes are set out in another part of this document and Section 7 of the Additional Information Booklet.

You should read all the information about fees and costs because it is important to understand their impact on your investment. You can also use this information to compare the costs between different simple managed investment products.

Fees and Costs Summary

Type of fee or cost ^{1,2}	Amount	How and when paid
Ongoing annual fees and costs		
Management fees and costs³ The fees and costs for managing your investment	1.25% of the net asset value (NAV) of the Fund per year. This is comprised of: – Management fee of 1.25% – Indirect Costs ⁴ of 0.00%	The Management Fee: – Accrues daily and is reflected in the Fund's unit price – Is paid monthly from the assets of the Fund Indirect costs are reflected in the unit price of the Fund and are generally deducted from the assets of the Fund when they are incurred.

Fees and Costs Summary

Performance fees³ Amounts deducted from your investment in relation to the performance of the Fund	0.22% ⁵	A performance fee may be payable out of Fund assets accrued each business day and generally paid on 30 June and 31 December each year. Please refer to the 'Additional explanation of fees and costs' section below for more information on Performance Fees.
---	--------------------	---

Transaction costs⁶ The costs incurred by the Fund when buying or selling assets	0.00% of the net asset value (NAV) of the Fund.	Transaction costs (net of the buy-sell spread) are paid from the assets of the Fund as and when they are incurred. They are reflected in the Fund's unit price.
--	---	---

Member activity related fees and costs (fees for services or when your money moves in or out of the product)

Establishment fee The fee to open your investment	Nil	Not Applicable
---	-----	----------------

Contribution fee The fee on each amount contributed to your investment	Nil	Not Applicable
--	-----	----------------

Buy-sell spread⁷ An amount deducted from your investment representing costs incurred in transactions by the Fund	Buy: 0.10% Sell: 0.10%	Buy-Sell spreads are costs incurred when you transact. A Buy spread increases the unit price (application price) when you buy units, and a Sell spread reduces the unit price when you sell units (redemption price). Buy-Sell spreads are reflected in the Funds unit price.
---	---------------------------	---

Withdrawal fee The fee on each amount you take out of your investment	Nil	Not Applicable
---	-----	----------------

Exit fee The fee to close your investment	Nil	Not Applicable
---	-----	----------------

Switching fee The fee for changing investment options	Nil	Not Applicable
---	-----	----------------

- 1 Fees in this PDS can be individually negotiated if you're a wholesale client under the Corporations Act.
- 2 The fees and costs charged do not include investment service or superannuation fund fees and costs. Please refer to the Operator's disclosure document for further information.
- 3 Please refer to the 'Additional explanation of fees and costs' section below and Section 6 of the Additional Information Booklet for more information about Management Fees and Costs and Performance Fees.
- 4 Indirect costs are an estimate for the financial year ending 30 June 2023 and may include reasonable estimates where we were unable to determine the exact amount.
- 5 Calculated as an estimate based on the average amounts of annual performance fees incurred by the Fund over the previous five financial years.
- 6 Transaction costs (net of buy-sell spreads) are Net Transaction Costs and are an estimate for the financial year ending 30 June 2023. In certain circumstances when the net transaction cost may be negative, the value will be rounded to zero.
- 7 Buy-sell spreads are current as at the date of preparation of this PDS. We may vary these spreads from time-to-time to reflect changing market conditions. The buy-sell spread for the Fund is available in 'Additional Information – buy-sell spreads' at bt.com.au/wholesaleplus.

To see how fees and costs may affect your investment, use the calculator on the ASIC website at www.moneysmart.gov.au/tools-and-resources/calculators-and-apps/managed-funds-fee-calculator.

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs of the Fund can affect your investment over a one year period. You can use this table to compare this product with other managed investment products.

Example – Balance of \$50,000¹ with a contribution of \$5,000 during the year

Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs	1.25%	And, for every \$50,000 you have in the Fund you will be charged \$625.00 each year.
PLUS Performance fees	0.22%	And, you will be charged or have deducted from your investment \$110.00 in performance fees each year.
PLUS Transaction costs	0.00%	And, you will be charged or have deducted from your investment \$0 in transaction costs.

Example – Balance of \$50,000¹ with a contribution of \$5,000 during the year

EQUALS Cost of the Fund If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of:
\$735.00
What it costs you will depend on the investment option you choose and the fees you negotiate.

¹ This amount is prescribed by legislation. The example above assumes that the \$50,000 is invested for the entire year, the value of the investment is constant over the year and the additional \$5,000 is invested at the end of the year. Therefore management costs are calculated using the \$50,000 balance only. The example includes rounded figures for illustrative purposes.

Additional explanation of fees and costs

Changes in fees and costs

The constitution for the Fund allows us to charge a management fee of up to 4% pa (excluding GST) of the value of the assets in the Fund.

We may change the amount of the fees and costs payable to us without your consent (up to any maximum that is allowed under the Fund's constitution). If we increase the fees or costs payable to us (such as the management fee), we will provide you with written notice at least 30 days prior to the change becoming effective (or otherwise as required by law).

Performance fees

A performance fee may be payable out of the assets of the Fund when the Fund outperforms its benchmark index, being the MSCI World Net Total Return Index (AUD) (benchmark). There is therefore no certainty that a performance fee will be paid, and actual fees paid are likely to vary from time to time.

Any performance fees are accrued each Business Day and, if payable, are paid on 30 June and 31 December each year (each a 'Payment Date').

The formula for calculating the performance fee on each Business Day is as follows.

$$10\% \times \left(\frac{\text{Fund performance (\% less benchmark performance (\%))}}{\text{Average daily value of the Fund}^1} \right)$$

The cumulative performance fee amount on any given Business Day is the aggregate of all daily performance fee amounts (both positive and negative) since a performance fee was last paid from the Fund (Cumulative Performance Amount). If on any given Business Day the Cumulative Performance Amount is positive, then that positive amount will be accrued and reflected in the Fund's unit price. On any day where a negative fee is calculated, that negative amount will be deducted to reduce the Cumulative Performance Amount.

If the Cumulative Performance Amount is negative on a Payment Date, no performance fee will be paid. That negative amount will be carried forward to the following period and no further performance fees will be accrued or paid until the underperformance has been recouped.

It is possible for the Fund to exceed the benchmark (and therefore be entitled to a performance fee) even where the Fund has had negative performance over a period, as the Fund may have performed better relative to the benchmark.

Performance fees affect the return on the Fund's investments and therefore the value of your investment.

 You should read the important information about 'Fees and costs' in Section 6 of the Additional Information Booklet before making a decision.
– Go to Section 6 of the Additional Information Booklet at bt.com.au/wholesaleplus.

You should also read the important information about 'buy-sell spreads' in the 'Additional Information – buy-sell spreads' before making a decision.
– Go to 'Additional Information – buy-sell spreads' at bt.com.au/wholesaleplus.

The material relating to 'Fees and costs' may change between the time when you read the PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

WARNING: You should note that investing in the Fund is likely to have tax consequences. We strongly advise that you seek independent professional tax advice before investing in the Fund.

The Fund attributes all of the taxable income, including realised net capital gains and tax credits (if any), to investors each year. As such, the Fund should not be subject to income tax. Rather, investors should be subject to tax on their share of attributions made by the Fund. You may also be subject to Capital Gains Tax on the disposal of your investment in the Fund.

Investing in the Fund may also affect your entitlement to pension or other social security benefits. We suggest you seek advice from your financial adviser or Centrelink.

 You should read the important information about 'How managed investment schemes are taxed' in Section 7 of the Additional Information Booklet before making a decision.
– Go to Section 7 of the Additional Information Booklet at bt.com.au/wholesaleplus.

The material relating to 'How managed investment schemes are taxed' may change between the time when you read the PDS and the day when you acquire the product.

¹ After deduction of fees and expenses and after adding back any distributions paid.

8. How to apply

Generally, you're only able to access the Fund indirectly through an investment service or superannuation fund. Accordingly, you should contact the Operator of your investment service or superannuation fund if you would like to invest in this Fund. Before investing in the Fund, you should read the entire PDS, the Additional Information Booklet and the Additional Information – buy-sell spreads, to ensure the Fund meets your needs. We may decline to accept any application for units without giving reason.

The Operator will be recorded in the register as the investor and will be the person who exercises the rights and receives the benefits of an investor. Indirect investors are subject to different conditions from those that would apply if investing directly in the Fund. You should refer to the offer document for the investment service or superannuation fund, or contact your financial adviser or Operator for any investor queries.

Cooling-off rights don't apply to any investments in the Fund acquired through an investment service or superannuation fund. Indirect investors should contact their Operator and read the Operator's offer document for more information on any cooling-off rights that may apply in relation to the relevant investment service or superannuation fund.

Complaints

If you have an enquiry or complaint, please contact either your investment service or superannuation fund Operator (for indirect investors), or us through the below channels:

Phone: 1800 287 873

Online: Using the secure feedback form at [contact us online](#)

If you are not satisfied with our response, you may lodge a complaint with the Australian Financial Complaints Authority:

Online: www.afca.org.au

Email: info@afca.org.au

Phone: 1800 931 678

Mail: Australian Financial Complaints Authority
GPO Box 3, Melbourne VIC 3001.

9. Other information

The Fund is subject to regular reporting and may be subject to continuous disclosure obligations. Copies of documents lodged with ASIC may be obtained from, or inspected at, an ASIC office. You can also call us to obtain copies of the following documents free of charge.

- The most recent annual financial report lodged with ASIC for the Fund.
- Any half year financial reports for the Fund lodged with ASIC after the lodgement of the above annual financial report and before the date of the PDS (if applicable).
- Any continuous disclosure notices we place online at bt.com.au/pdsupdates or have lodged with ASIC.

For more information

bt.com.au 1800 287 873 Wholesale Plus Funds, GPO Box 2861, Adelaide, SA 5001

Target market determination

WFSL has issued a Target Market Determination (TMD), which includes a description of who the Fund is appropriate for. The TMD can be accessed via bt.com.au/tmd or by contacting us on 1800 287 873.

Updated information

Information in this PDS is subject to change from time to time. Any changes to information in the PDS that are not materially adverse, such as minor changes to the asset allocation for the Fund, may be updated on bt.com.au/pdsupdates. If the change to the information in the PDS is materially adverse, we will update the PDS and provide notice as required by law. The PDS is available on bt.com.au/wholesaleplus. You may also be able to obtain a paper copy of the PDS or any updated information, free of charge, in several ways:

- Contact your investment service or superannuation fund Operator (for indirect investors).
- Contact your financial adviser.
- Call our Customer Relations team on 1800 287 873.
- Email us at WholesalePlus@btfinancialgroup.com.

You should read the important 'Other information' in Section 9 of the Additional Information Booklet before making a decision.

- Go to Section 9 of the Additional Information Booklet at bt.com.au/wholesaleplus.

The material relating to 'Other information' may change between the time when you read the PDS and the day when you acquire the product.
